ABOUT ME

Hello! I am Muhammed Rabeeh from Malappuram, Kerala. I am a full-stack developer using Python and Django, and I am proficient in MERN stack as well. I completed my secondary education from NIOS (National Institute of Open School). I pursued my graduation in BA Arabic from Calicut University, and for the previous 8 years, I studied at Islamic College named Jamia Mahiriyya, affiliated with Jamia Nooriya. Unfortunately, I didn't complete my graduation as I focused on self-learning coding during this period. After that, I joined Brocamb.
